

## Corporates for Environment

Environment, ecology, wildlife and habitat activities offer corporations greater opportunity to make a more visible and long lasting outcomes, irrespective of CSR or otherwise. Coming together, corporations could scale up CMS VATAVARAN festival and quickly make it an important global forum and set a good example for global corporations to take to environment. Since CMS VATAVARAN is already part of a global network and spread across most States of the country over the last decade, it is a better bet to rally around it.

With this objective, CMS VATAVARAN has initiated the idea of a 'corporate forum for environment'. This group purpose will be to appreciate and learn from the efforts of various corporate in the field of environment and management in our country. This group titled "Corporates for Environment" has very senior professionals from the industry and government and is an integral section of the CMS VATAVARAN: International Environment & Wildlife Film Festival and Forum ([www.cmsvatavar.org](http://www.cmsvatavar.org)).
